EDUCATION

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.Tech. Major	Dwarkadas J. Sanghvi College of Engineering , Mumbai	7.9(Current)	2022-Present
Senior Secondary	Maharashtra Board of Intermediate Education	96.44%	2022
Secondary	Maharashtra Board of Secondary Education	91%	2020

EXPERIENCE

- **SuperNest.ai** May 2024 - Jul. 2024
Intern Remote, India
 - Developed a minimum viable product (MVP) for a rental marketplace using HTML, CSS, Bootstrap, Flutter, and Dart. Conducted user research to gather feedback and refine features, ensuring alignment with user needs.
 - Designed and implemented core features including property management and community forums.
 - Executed marketing campaigns, achieving 45 pre-launch registrations and establishing brand partnerships.

PROJECTS

- **Gaze Guide** May 2024 - August 2024
Group project Github
 - Developed an innovative touchless interface utilizing OpenCV, allowing users to navigate and interact with the interface solely through eye movements; eliminated the need for physical touch, promoting a hygienic and intuitive user experience while enhancing accessibility for individuals with mobility limitations.
 - Utilized an algorithm employing adaptive thresholding to pinpoint the iris and used **Haarcascades** to detect eyes. **Homography matrix** technology was used to synchronize cursor and pupil movements, improving user experience.
- **JoSAA Data Analyser** December. 2023 - Feb 2024
Group project Github
 - Developed the "IIT-PREDICTOR" project, an open-source webpage available on GitHub, aimed at predicting admission chances in all 23 **Indian Institutes of Technology (IITs)** based on various criteria.
 - Utilized data from the previous 7 years from the **JoSAA** website, including cutoff scores and seat matrix.
 - The data was extracted from the website using the **BeautifulSoup** and **Pandas** libraries through web scraping techniques.
- **Real-Time Chat Application** May. 2023 - July 2023
Self Project Github
 - Built a real-time chat application using Django, Redis and WebSocket API for seamless user communication.
 - Integrated private one-on-one conversations, enabling users to engage in personal discussions.
 - Revamped profiles by enabling profile pictures and personalized descriptions for a unique user experience.

TECHNICAL SKILLS

- **Programming:** C, C++, Python*
- **Miscellaneous:** MS Office, Figma, SQLite, SQL, Data Visualization
- **Web Technologies:** HTML, CSS, JavaScript*, Django*
- **App Development:** Flutter*, Firebase*
- **Tools/Frameworks:** Machine learning & deep learning algorithms, OpenCV, Numpy, Pandas, Matplotlib*, Beautiful Soup* * Elementary proficiency

KEY COURSES TAKEN

- **NPTEL: Big Data Computing:** Hadoop, Spark, Pipelines, ML using spark, Kafka
- **AWS Academy Graduate:** Cloud computing, AWS architecture
- **Computer Science:** Data Structure and Algorithms, Introduction to Computing (Theory & Lab)
- **Python (100 days of code)** : web scraping, beautiful soup, Scikit learn, openCV, Flask & databases

ACHIEVEMENTS

- **CodeKaze**, Secured **University 3rd** rank in CodeKaze conducted by Coding Ninjas. 2023
- **Microsoft Learn Student Ambassador**, Selected as MICROSOFT LEARN STUDENT AMBASSADOR. 2023

POSITIONS OF RESPONSIBILITY & EXTRACURRICULARS

- **Core Team**, Marketing Executive, DJ Sanghvi June. 24 - Ongoing
- **Publicity associate** , DJSCE- GDSC Sept.23 - May. 24
- **Youth Secretary**, St Louis June 2023. - Ongoing
